

Checklist (3)

DAY 1 OF CLINICAL

- ☐ First thing in the morning, CI and student discuss learning styles, expectations (caseload, independence with cases), how the student prefers to receive feedback and when, and goals for the clinical (anything specific the student wants to learn/observe/perform during this rotation).
- ☐ Introduce them to other staff members and show them around the clinic so they know what equipment is available and where things are located.
- ☐ Create social media post about student based on information from “Getting To Know You” sheet
